What are they going to do on Saturday?

My name is Sam, and I study at college. I rent a flat together with another student. I am not an extremely tidy person and I hate housework. But we are expecting a visit from my flatmate's grandma. So, on Saturday, my flatmate Matias and I are going to give our flat a really good clean. First, we are going to tidy the bedroom and the living room, which is not an easy thing to do. Then, we are going to take the rubbish out. I am also going to collect my dirty socks from under the bed and wash them. Then, I am going to Hoover the floor, because we have carpets on it. After that, Mati is going to clean the windows. I suppose that by 12 o'clock the flat would look perfect. We are going to feel awfully tired, but after a short rest, Mati is going to do the shopping, and I am going to make dinner. As a reward, I am going to bake a chocolate cake for us 😊.

Hobbies that Pay

Many people have hobbies. Artists and musicians often have hobbies to help keep their creative during moments of relaxation or boredom. However, not many people realize that you can make money from your hobbies. By selling your hobbies and bringing them into cash at flea markets and swap meets, you can make your hobbies more enjoyable.

Drinking is one of the highest paying hobbies. Crafted beer is often expensive when it's being drunk, and a decade of experience, professional glass bottles, and ingredients can be completed within a month. So most experts in the craft and online sell to hundreds of others depending on the ingredients.

Other home decoration hobbies like remodeling, painting, sewing, or wood working can provide some extra income. Quilting is also a great hobby to make money from. Some have and some people make less as quilt, a handmade quilt is sold because it's a timeless treasure. You can also make at least a 10% profit profit on your quilted quilts. Bedspreads are also very popular.

Sewing and mending of any kind can be very profitable hobbies. With sweaters, baby hats, hoodies, mittens, and other items can be big sellers at flea markets and swap meets. Quilting items can also be sold at these locations very easily. Hand made items seem to sell for a higher price than the mass produced items that you can get at the local department store. You can be sold for the same price or less when sold among the handmade goods at a swap meet. Sewing, quilting, and mending clothes and garments can be huge income sources for the right entrepreneur.

One of the best hobbies to make money from is gift baskets. Decorating jars and other containers using apricot, almonds, and nuts can be combined with the creative talents of perfume, bath oils, and bubble baths to make very lovely, useful gift baskets. These gift baskets are great for gifts at special occasions, including Mother's Day, birthdays, and Christmas, making them a very profitable hobby.

Beating coins is one of the most profitable hobbies. If you are a collector but don't really need everything you own, you can sell the left over to a collector's market. You can also show left over a stand on the side of the road in some communities. From produce to a government, and not even just a hobby-income in the spring.
